POWERING NEW IDEAS

Welcome to EnergyDecentral 2020

Energy supply and efficiency are among the defining themes of our present-day society, and in addition to affecting our environment they also have a crucial influence on business success. EnergyDecentral as a specialist trade fair for decentralized energy supply offers a unique platform for this. EnergyDecentral is organized by DLG, the German Agricultural Society.

An extensive programme for professionals

The EnergyDecentral features all the relevant information about Post-EEG (the German Renewable Energy Act), the filling station of the future, bio-fuel certification, service and maintenance of chp-units and much more. For further information visit energy-decentral.com

Technical programme with partners

A Forum, one special show, plenty of discussions and a range of events – the technical programme at EnergyDecentral offers interested parties a comprehensive overview of current topics and issues in the energy sector such as: A special on the topic “Own power supply in agriculture” informed comprehensive about trends and perspectives as well as new business models.
