PARTICIPATION OPTIONS FOR START-UPS

The start-up area at EuroTier and EnergyDecentral is the meeting point of young and innovative companies from the animal farming and decentralized energy sector.

In our exciting start-up area, companies will present their products, technologies, services and innovations around carbon-smart animal husbandry, sustainability, animal welfare, food quality, food safety, nutrition management, precision livestock management, robotic sensors and monitoring solutions for disease detection, new forms of proteins, neural networks, artificial intelligence blockchain technology virtual reality, energy production, storage, carbon emission reduction and saving.

1 Stand in the DLG-AgrifutureLab

For national and international start-ups that are younger than ten years and have less than 50 employees.

Advantages:

- Attractive trade fair presence
- Promoted by the DLG
- All-inclusive offer at a special price

OR

2 Stand in BMWi Joint Stand

For legally independent young innovative German companies with new product and process developments, which are younger than ten years and have less than 50 employees.

The headquarters and business operations must be in the Federal Republic of Germany.

[Information and funding application](#) 

Advantages:

- Placement in the BMWi Joint Stand "Innovation made in Germany"
- Funding by the Federal Ministry of Economics and Energy (BMWi) of 60%; the company's own contribution is 40%
- Funding is available for the first two trade fair participations; a maximum total of €7,500.00 per exhibitor and trade fair will be granted
